

June 24, 1926.

Mr. L. C. Rasmussen,
Sec. Twin Creek Irrigation Co.,
Mt. Pleasant, Utah.

Dear Sir;

RE: TWIN AND CEDAR CREEK DISTRIBUTION.

Mr. A.H. Christenson called at this office during my absence and asked that you be furnished with an itemized statement of expense in connection with the distribution of waters from Twin and Cedar Creek by Mr. Don Jerman. He also asked that you be furnished with information as to how the separate amounts were reached and I assume by this that he meant the division of the total cost among the various users.

The total of the assessment amounted to \$211.70, which has been divided as follows:-

Twin Creek Irrigation Co.	137.88
Cedar Creek Irrigation Co.	31.66
L. W. Aiken	6.32
Cedar Creek High Water Co.	31.66
Monson (Appr) Winkelman & Monson	4.18
	<u>\$211.70</u>

With reference to furnishing an itemized statement of expense I would say that before so doing I would like some idea of the use to be made of this statement. This matter of furnishing a Water Master is not an easy one provided a competent man is to be found. Apparently the Water Master for this office is expected to finance this work during his employment and if there is to be any argument over the division of expense and the payment of the same this office is not going to bother with the matter in the future.

The services asked for have been rendered and I understand in a very satisfactory manner and the least that the users asking this service can do is to pay their pro rata at once.

Yours very truly,

State Engineer.

C.C.-Mr. A.H.C.
